MUHAMMAD SAAD ZUBAIR

AI Engineer & Full Stack AI Developer | AI Automation Engineer
Karachi, Pakistan • +92 336 2179891 • muhammadsaadzubair10@gmail.com • LinkedIn • Portfolio: devdotsaad.vercel.app

PROFESSIONAL SUMMARY

Software Engineering graduate and AI engineer who builds real-time AI products end to end — speech-to-text, RAG, LLM integration, Electron overlays and Next.js web apps — plus the CRM automation around them. Strong in JavaScript, React, Next.js, Node.js, Python and Supabase/PostgreSQL, with hands-on experience in reusable architecture, debugging, cloud deployment (GitHub → Vercel CI/CD, Docker) and leading a small dev team.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TailwindCSS, Bootstrap, GSAP
Backend & Data: Node.js, Python, RESTful APIs, WebRTC / real-time media capture, Supabase / PostgreSQL, pgvector, SQL & relational databases, Pandas / NumPy
AI & Automation: LLM integration (OpenAI, Gemini, Claude), RAG (embeddings + pgvector), Whisper STT, Piper TTS, VAD, GoHighLevel bots/workflows, Close CRM, Retell.ai Voice AI Agents, Zapier, Webhooks, Meta Pixel / Conversions API
Cloud & DevOps: Vercel, Supabase Auth + Row Level Security, GitHub → Vercel CI/CD, Docker containerization, environment & secrets management, Electron packaging (Windows/macOS installers)
Software Engineering: Object-Oriented Programming (OOP), SDLC, API integration, reusable architecture, debugging, performance profiling

FEATURED PROJECTS

AI Interpreter — Live Two-Way Voice Translation for Zoom / Meet / Teams — Independent Product | Launching Soon
- Designed and built end to end: on-device Whisper STT with VAD, neural machine translation, Piper TTS into a virtual microphone, and a floating caption overlay invisible in screen-share, with echo handling and automatic audio-device detection.
- Electron overlay plus Next.js dashboard and marketing site with Supabase auth and RLS-based usage metering.

Sales Coach — Real-Time Sales-Call Coaching Platform — Thelaywala | Live Project
- Real-time coaching product with dual-side transcription, next-response guidance, objection and buying-signal detection, RAG over past winning calls, AI summaries, follow-up email drafting, saved meetings and usage dashboards (Windows/macOS).

Coach AI — Real-Time AI Customer-Success Coaching Platform — PainterGrowth.com | Live Project
- Production Next.js + React platform with Supabase/PostgreSQL + pgvector for CRM, knowledge-base retrieval and persistent customer memory; OpenAI/Gemini integration with a Python real-time speech-to-text engine capturing microphone and system audio.
- Delivered end-to-end across web, data, AI, Electron desktop packaging and cloud deployment, including one-click Windows and macOS installers.

Additional Projects: Salon Website — GHL lead-generation funnel + CRM automation | Weather App — OpenWeather API + responsive UI | TaskFlow — React/Vite productivity app + persistent storage | Blog App — multi-page React app + reusable components

EXPERIENCE

AI Engineer & Full Stack AI Developer — Thelaywala.com *Jan 2026 – Present*
- Lead developer on the team's AI products; currently training and supervising two developer interns, reviewing their work and setting engineering standards.
- Build responsive lead-capture funnels and landing pages with real-time webhooks, CRM pipelines, Meta Pixel/CAPI tracking, and automated email/SMS workflows.
- Design and maintain automation across GoHighLevel and Close CRM, including lead routing, pipelines, sequences, Zapier integrations, and webhook-driven processes.
- Configure and train conversational bots and voice agents in GoHighLevel and Retell.ai, refining prompts, call flows, knowledge/context, qualification logic, and human handoffs.

Data Science Intern — Data Zenix Solutions *Sep 2025*
- Cleaned datasets, supported analytics-dashboard creation, and delivered data insights that improved reporting efficiency and stakeholder communication.

Frontend Intern — Elevvo Pathways *Jul – Aug 2025*
- Built responsive CSS layouts and JavaScript interactivity, developed reusable React components, and improved UI performance through clean design.

Web Development Trainee — SMIT *2023 – 2024*
- Built responsive web interfaces with HTML, CSS, and JavaScript while developing clean UI design and software-development practices.

EDUCATION & CERTIFICATIONS

BS Software Engineering — Sir Syed University | 2022 – 2026 **Pre-Engineering** — DJ Science College | 2020 – 2022
Certifications: Web Development — SMIT (2024) • AI — HP LIFE (2025) • Frontend — Elevvo (2025) • Data Science — Data Zenix (2025)
Languages: Urdu (Native), English (Fluent)
